

Anatome Posture Machine Footrest

Information

The Anatome Posture Machine Footrest is a necessary addition to the home and office space. Engineered in high-grade steel for durability and strength, the footrest is built to withstand daily use, and its sleek and modern design ensures it fits seamlessly anywhere.

The resting platform is hardwearing, with a comfortable anti-static surface. The footrest is height adjustable and its dynamic movement tilt means it's user-friendly. Its 4 non-slip and non-scratch feet ensures it stays in place for years to come.

The Anatome Posture Machine Footrest is made by Sit And Move and is fully recyclable.
